INTO FILM
CLUBS

My Film Viewing Timeline

How to complete your timeline

- When you watch a film in film club, add it to the timeline.

- As you begin to complete your timeline, use the Into Film website www.intofilm. org/films and talk to your film club leader about other films you could watch to build on your timeline.

- To add more detail, you might like to add major world events, advances in technology or Best Picture Oscars winners for that year to build up a more detailed timeline. If you want to find out more about when the films you watch were made, use the Into Film website to search for the film title or use www.imdb.com

- You might like to work with other film club members to design other displays to show the different types of films you watch in film club.

You can also use the **My Film Viewing Map sheet** to record the films that you watch and set yourself new film watching challenges.
